IES SCHOLARSHIP FUND

The Illuminating Engineering Society is an organization established for the advancement and dissemination of theoretical and practical knowledge of the science and art of illumination. With this in mind, the Milwaukee Section hereby establishes a Scholarship Fund.

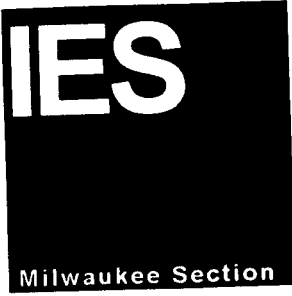

The Scholarship will be available to the sons and daughters of I.E.S. members during their junior and senior years. It is also made available to students who have been sponsored by a Milwaukee Section member in good standing. Applicants shall be registered in a College or University for a study toward a degree in engineering, science, architecture, interior design, or a related degree whose curriculum is related to illumination.

Applicants who will be entering their junior or senior year should apply any time before August 1, by completing the application and returning it to the Milwaukee Section Board of Managers. Individuals must apply each year.

The Board of Managers will review the applications. The Board will then make the determination if a scholarship is to be awarded, and the dollar amount based on what is available annually. A scholarship need not be awarded each year.

The scholarship checks will be made out to the University and be awarded at the annual Scholarship Outing in September. It is preferred if the candidates being awarded scholarships attend, but is not mandatory.

Recipients will be chosen on the basis of grade average, need, sincerity and desire to contribute to the industry.
