MILWAUKEE SECTION

October 2009

Welcome Back!

Our October meeting theme is the annual Past Presidents' meeting, but it is really about recognition. We are fortunate to have had presidents who were truly dedicated to the success of our local section. We honor this dedication and recognize that many of our Past Presidents continue to be active in section meetings, Board of Managers meetings, and currently serving on committees. Erv Stern steadfastly led our section through a tough financial year last year, helped shape the officers in place this year, and has taken on the role of Nominating Committee Chair. Yazi Fletcher continues as the District Chair for our Region. Dave Drumel actively coordinates fantastic golf outings twice each year, and Ron Reinowski heads up our Scholarship Committee. We appreciate their time and effort - past and present.

At this meeting we will also recognize members who have been part of IES Milwaukee for 10 years or longer. Membership pins will be handed out to those present at the meeting (yes, we really have them). We have a very strong and stable section because of our membership.

We have plans for some great meetings this year and encourage everyone to make an effort to attend regularly. Hope to see you soon!

Liesel

WELCOME TO

OUR NEWEST MEMBERS:

Jun Wang— Orion Energy Systems

Lindsay Steele — Everbrite Lighting

Kristie Anderson— Phoenix Products

Board of Managers

The Milwaukee Section Board of Managers meets monthly to discuss section activity. Each Committee Chair gives an update on what their committee is doing and if any help is needed.

Members are welcome to attend and provide their input, or better yet, volunteer on one of our committees.

Meetings are typically held the Thursday following our regular meeting. Please contact Liesel Whitney-Schulte for details.

2009-2010 Board of Managers include:

Erv Stern—Past President and Nominating Committee Chair

Kristen Roth-Briggs—Program Committee Chair

Mike Smith— Membership Committee Chair

Shanna Olson— Education Committee Chair

And 2009-2010 Milwaukee Section Officers

Additional 2009-2010 Committee Chairs:

Dan Walsh— Illumination Awards Committee Chair

Dave Drumel—Social Event coordinator

Ron Reinowski—Scholarship Committee

IES Webcast October 14: Using Daylight as a Light Source

This webcast will provide you with state-of-the-art information on:

- ⇒ Strategies to integrate daylight with electric lighting for offices, schools, retail, and other workplace environments
- ⇒ Current capabilities of tools to predict daylight illumination levels within a space, to help you understand how daylight illumination will vary by time of day, season and location
- ⇒ Daylight's contribution to visual quality, human health and well-being, and our national energy efficiency goals

Join your colleagues on October 14, 2009 for an enhanced educational experience. Duration: approx 70 minutes plus Q+A.

Lisa Heschang is a principal of Heschang Mahone Group and a licensed architect who has divided her professional practice between energy research, writing and building design.

Illumination Awards

Congratulations to all of the Illumination Award winners from our section. There were some fantastic submissions in 2009, and we look forward to the 2010 program. (It's not too soon to start thinking about submitting your project!)

A HUGE thank you goes out to Maggie DeJong who was our previous Illumination Awards Committee Chair. We were fortunate to have Maggie run this program for several years, but especially last year, when the awards program went to an electronic format.

Dan Walsh has graciously agreed to take on the challenge of coordinating this program for 2009-2010—Welcome to Dan!

Program Committee

Kristen Roth Briggs has officially accepted the Program Committee Chair position. Kristen has been incredibly helpful in setting up program events for the past few years, so we are thrilled to have her officially on board. Together with Lorinda Walters Flores, our Vice President, we can look forward to another year of great meeting topics and venues.

The meeting schedule is posted on the last page of this newsletter and on our website. We have a great lineup so far, but are always looking for new ideas for meetings.

The program committee actively seeks input from members to make sure that the meetings are interesting and informative to all attendees. If you have a suggestion for a meeting topic, venue, menu or other idea, please forward to Kristen or Lorinda so that we can incorporate them into our programs.

The Program Committee works hard to make sure that meetings are a good value to our members. Please remember to R.S.V.P. by the deadline listed in the meeting invitation and if you need to cancel, please notify Lorinda in advance of the R.S.V.P. date. Many restaurants require a deposit and bill us based on this count and we have to pay for all meals even if you don't show up.

Ian Shaw (Philips Colorkinetics) discusses LED lighting at the January 2008 meeting.

CONGRATULATIONS

TO OUR
SCHOLARSHIP
RECIPIENT -
MSOE STUDENT
GREG MUTCHLER!
GOOD LUCK IN YOUR
SENIOR YEAR!

Special January Meeting planned!

Our January 12, 2010 meeting is planned to feature a discussion of theatrical lighting by Holly Blomquist at the Milwaukee Repertory Theater. Holly will be working on the production "Pearl Bailey, By Request" and the evening will include cabaret seating for the performance and Q&A after the show for questions about equipment, effects, space layout, the show design, etc..

Cost of this meeting will include show tickets; we must reserve a block in advance, so we would like to get a feel for how many of our members would like to attend. Please contact Lorinda at lorindaflores@hotmail.com ASAP if you would be interested in guaranteed seating at this event.

Education Committee

Welcome to our new Education Committee Chair, Shanna Olson! Shanna's enthusiasm for sharing lighting with a more diverse student base will be put to good use this year, because we will be adopting the new format for the Lighting Fundamentals program that was developed by IES National.

Fundamentals of Lighting is an introductory course comprised of seven modules. It replaces ED-100, Fundamental Level. Participants who pass the course will receive IES Continuing Education Units or AIA Learning Units.

Each module includes textual material, power point student handout note taking pages, quizzes, and additional references.

Tentative dates for the 2010 Lighting Fundamentals class are:

Consecutive Tuesdays

February 9-March 23

7:00 PM to 9:00PM

For more information, please

contact Shanna Olson at:

shanna@ibcengineering.com

ANNOUNCEMENTS

If your company has any announcements, job openings, or educational events or other news, please contact Liesel Whitney-Schulte to have it published here.

Anyone interested in forming a Study group for the upcoming LC Exam in November, please contact Kristopher Reimann at kreimann@weccusa.org

Visit the new and improved IES Milwaukee Section Website at IESMilwaukee.org

Mission Statement:

The IES seeks to improve the lighted environment by bringing together those with lighting knowledge and by translating that knowledge into actions that benefit the public.

Vision Statement:

The IES will build upon a century of excellence to create the premier lighting community dedicated to promoting the art and science of quality lighting to its members, allied professional organizations, and the public.
